# Lakshit .

Data Science | IOT | Artificial Intelligence | Machine Learning Trainee  
Haryana

## Summary

Junior developer, Enthusiastic about AI, IoT, DS, Machine learning, Robotics. Believe in Collaboration rather than Competition because talent wins games, but teamwork and intelligence win championships. Always looking for new projects and willing to work. I aim for full immersion in as many fields and projects as possible. This is why I am into AI: it's the great denominator that will add to every field, Also a Pre-Investor in Equity shares.

I enjoy spending my free time as a competitive programmer, reading books, building funny apps, writing blog posts, and make some tutorials videos on my youtube channel(Code with Lakshit) because investing in yourself is the best investment an individual can make.

Also, represented my State in cricket, athletics. Done some volunteer work at NEW BARRCKPORE NAVACHETNA WELFARE SOCIETY.
